Dear Rhonda:

I am in receipt of a purported notice of expiration issued by the Chairwoman of the Governor's Regulatory Review Council.

This GRRC notice is illegal and should not be entered in the administrative record. Moreover, it falsely recites the facts concerning the Council's decision.

As the Council's own minutes show, the Council did not make the determination on February 2, 2016 that is described in the Council's notice. A copy of those minutes are attached for reference. Consequently, please refrain from publishing the GRRC notice. The Commission meets Monday to discuss this matter.

Attached is the Commission's own notice respecting GRRC. Please publish it in the administrative register as soon as possible.

I will hand deliver signed originals today.

Thanks,
Tom
